

MEDICINAL INHALATIONS.

MR. D. P. WALKER,

Begs to intimate that he continues to supply, in a very much improved form, the Cheap and Efficient APPARATUS FOR THE PRODUCTION OF MEDICATED VAPOURS, to which he requested the attention of the Medical Profession by circular several months ago. He has since sold large numbers, and received so much evidence of its quality, that he with every confidence recommends it as the best in the market, irrespective altogether of the fact that it is also the cheapest. (*A full description will be found in Dr. Adams' communication on 'Medicinal Inhalations,' in the March number of the Glasgow Medical Journal.*)

The cost of the Instrument, packed in a stout wooden box, accompanied with directions for use, is 5s.

MR. WALKER will have pleasure in explaining to any person who may favour him with a call, the action and very simple management of the Instrument, and he will also continue to give careful personal attention to the preparation of Medicated Fluids, according to extemporaneous prescription, or to the approved formulæ of various eminent medical gentlemen who have given special attention to this mode of treatment.

125 NEW CITY ROAD, GLASGOW.
